home in Dillimick, after a two weeks' visit

with her daughter, Mrs. T. W. Eason.

few days ago.

Don't step on Jacob Newcomer's left

foot with too heavy a tread unless you want

to get into trouble; if he has a broken toe,

rescued a few days ago by one of his

horses stepping on it.

Mr. and Mrs. Cummings are enroute for

Portland, Maine, where they expect to

spend a month.

Mr. and Mrs. J. A. Nels have entered

eternal rest; she was a light and a joy in

the midst of her neighborhood, pleasure

to her friends and an affectionate wife and

mother to her children.

Two children and her husband, besides a

large circle of friends are left to mourn

their loss; her gain.

"He lived long who liveth well."

A very young man in this town has

just painted and rigged up his cutter for

further use, so girls, you may look out for

some fine rides this winter.

Our rich bachelors and handsome young

men will please notice that this is the

month before leap year. Now, if you will

take their initiation you had better do

it too late.

For the benefit of young ladies abroad we will publish a complete

list, the first of the year, of the successful

men, and until you see our

list before you make your selection, as it

will pay you, ladies.

U. A. L.

Mr. Powers in Skidell's Sons

have come down following testimony

to the efficacy of S. S. Smith's medicine

and fever, from one of the best known physi-

cians practicing in Georgia. It will be

seen that he strongly testifies to the happy

results attending from the use of his medi-

cine in preventing the frequently very

serious consequences that follow an attack

of measles. The resultant effect of an at-

tack of measles remains to lie system for

months, and unless great care is exercised

in the treatment of the system, endangering

life. We take great pleasure in giving

the widest possible circulation to this

eminent physician's candid and many

letter written in the cause of suffering

children.

BIRMINGHAM, Ga., March 31, 1887.

My Dear Sirs.—I have used your S. S.

Smith's medicine, especially for measles. A

feature of that disease is that leaves

the marks of affection in the skin.

After a short interval of time the

marks of affection continue

from four to six months. I have given it

to several persons getting out of bed

from the measles and always with im-

mediate results.

I am sending you a few

leaves of S. S. Smith's medicine, and

will prompt to send you this letter,

because just now I am aware that measles

prevail in Southwest Georgia. While I

hesitate to name any particular physician

or such a man, I can assure you

that I am relieved of the embarrassment

ordinarily attached to a regular physi-

cian's endorsement of proprietary medi-

cines. Besides the claims of suffering

humanity are greater than selfish pro-

fessional ethics.

Yours sincerely,

J. M. CHENEY, M.D.

The stock of M. Joshua Rodgers will

be well thought the winter for there was

an immense area of stalls recently rented

Some of our young people are attend-

adjusted to their studies.

Mr. Kingsley, we understand, anticipates

not that Will and his son will enjoyable

as well as a profitable tour.
